CCCC Members,

Winter definitely came back to Michigan in the month of January, and I hope you have been doing a good job of surviving the cold and snow. Hopefully the temps will warm up a little in the coming weeks, and we can start to get excited for some upcoming club events.

Plans are already underway for several of are usual events this year starting with a breakfast get together on Valentines Day. The Region Banquet is the end of March, and in April we will get together for the Top Ten Dinner and the Vermontville Syrup Festival Parade. We have also been invited to participate in the Lansing 4th of July Parade this year, to celebrate the nation's 250th Anniversary.

As Bob Adado brought up in the last meeting I encourage each of you to leave a Google review on the CCCC website. It only takes a few minutes and I for one would be interested to hear what you think about your membership in the club; why you joined, what you enjoy most about your membership, and why others should consider joining us.

We had a very good turnout at the January Membership meeting, and I hope you all can join us again on February 4th. If the weather deters you from wanting to get out on the roads or if you are wintering in warmer climates remember that you can always join in via Zoom.

Stay safe and warm, and I look forward to seeing all of you soon,

Tom Faupel, President
Capital City Corvette Club

2025 CCCC Points Report – Kim Keith

2025 CCCC Points Report

By Kim Keith

It took 88 points to reach the top ten in 2025. Our first-place member finished with 206 points.

The top five most attended events were:

The August General Membership Meeting	48 members
The November General Membership Meeting	41 members
The December Holiday Lunch	41 members
The May General Membership Meeting	40 members
The Fall Color Tour	39 members

Other major CCCC events such as Blessing had 37 members attending, followed by the Mackinaw Corvette Crossroads Show with 35, and the Shaheen Show with 32 members attending.

5 of our members visited the National Corvette Museum this past year where CCCC is a member club.

We had 13 members post zero points for the year.

Totaling all the points for all our members resulted in 1352 points being awarded in 2025 compared to 1287 points in 2024, so participation was up a little.

I have heard members state that you cannot reach the top ten without holding an elected office, however, four of our top ten members this year did not hold such a position in the club. As a matter of fact, working at a club competition event for just a couple hours will earn you 5 points, the same amount an elected officer receives for serving the entire year. Working at a club social event will earn you 3 points, the same amount an appointed officer receives for the entire year. Chairing, hosting, or organizing club events also offers an opportunity to gain points more quickly.

I encourage everyone in the club to participate in as many events as possible this coming year. It has been my pleasure to serve as your points director this past year and a half, and I hope you support Michael Lewis as he takes on the position, with the same respect that you have shown me.

Letter from the Editor

If you have found yourself wandering into the garage lately, hands in pockets and staring at your Corvette like it personally betrayed you by not being drivable. Congratulations, you are not alone.

Winter in our state is a curious thing for Corvette owners. We suddenly become expert battery tenders, tire pressure monitors, and garage philosophers. We promise ourselves we're "just checking something" and thirty minutes later we're still there reminiscing about summer drives debating whether that exhaust note was always that perfect and casually starting the engine for purely scientific reasons.

This is the season where our cars rest but our enthusiasm does not. If anything, winter is when the imagination goes into overdrive. We plan new routes we will take in May. We sketch out the next mod we positively don't need but are already pricing anyway. We scroll through photos from last year's cruises and somehow convince ourselves that the weather was always perfect, which history strongly disagrees with.

There is something kind of poetic about it though. Our cars are sleeping. Spring is loading. And every one of us knows the exact moment that starts the season the first sunny day above forty degrees when someone in the club posts "Couldn't help it, took her out."

Until then, let's remember that while car season is measured in months, club season is year-round. So, here is my winter challenge to you:

Start a conversation with a member you haven't talked to much. Dig up an old road trip photo. Tell someone about the drive that made you fall in love with your Corvette in the first place. And maybe just maybe go stand in the garage one more time and remind your car that better days are coming.

They are. We can feel it. Stay warm...and keep those keys handy.
